DICAR P520 POLISH

DESCRIPTION

Ultra fine polish suitable for protecting and maintaining the high gloss level achieved after compounding.
It removes micro-scratches and holograms in dark paints.
It preserves surfaces from atmospheric agents and leaves long lasting high gloss shine.
It can be applied by hand, with orbital and polishers.

OTHERS CHARACTERISTICS

Extremely easy to apply and remove
Water soluble
Odourless
It does not whiten plastic parts
Ecological
It does not contain silicones

APPLICATION METHOD

- By Hand: Apply on the surface by wadding/microfiber, polish by circular crosswise movements. Let it dry for some minute and clean the surface by a microfiber cloth.
- By Polisher / Orbital: apply on wool pad soft or directly on the surface, few quantity of the product.
- Polish at low speed (max 1200) by circular crosswise movements. Let it dry for some minute and clean the surface by a microfiber cloth.

PROCESSES

Step 1 analyse the superficial defect and conditions of the surface
Step 2 surface preparation
Step 3 choose polishing process

PACKAGING

1 liter

BOX

12 x 1
