DICAR H500 HIGH CUT

DESCRIPTION

High cut Abrasive Paste for car refinish, formulated just to be used in polishing process on fully cured surfaces and high resistance clear coats. It offers an excellent balance between high cutting action and gloss. However, according to the colour of the paint or the quality level required, an additional step with Dicar F510 fine cut abrasive paste is recommended. It can be used by hand to remove superficial scratches, it gives shining to old paints obtaining a very gloss surface without holograms.

OTHERS CHARACTERISTICS

Water soluble
Odourless
It does not leave holograms
Ecological
It does not contain silicones / masking waxes

APPLICATION METHOD

Apply on soft wood pad (suggested) or medium-high hardness foam pad and start polishing.
Keep low speed to do not warm the surface by crosswise movements until the required result is obtained.
The last application must be done with higher speed to use all paste residuals.
Clean the surface with a microfiber cloth.
We suggest to complete using our Polish.

PROCESSES

Step 1 analyse the superficial defect and conditions of the surface
Step 2 surface preparation
Step 3 choose polishing process

PACKAGING

1 liter

BOX

12 x 1

Our technical department is at your service for any further details or information you may require.
